

NEARBY TOWNS TO HOLD FLOWER SHOWS THIS FALL

Exhibits Are Expected Far to Surpass Those of Any Previous Year.

Flower shows are being arranged in several of the nearby towns, and it is stated the exhibits are expected far to surpass any previous year.

The Takoma Park Horticultural Club is to hold a dahlia exhibit at the library, Takoma Park, October 2 and 3. It is estimated that several hundred varieties of this flower, as well as roses and other flowers, will be on display. The exhibit is to be free and is for the purpose of demonstrating what can be done to beautify the community. The dahlia will be judged on individual specimens and collections and suitable ribbons awarded.

The sixth annual flower show of the Hyattsville Baptist Church is to be held in the Sunday school room on October 5 and 6. Exhibits are to be on display from 2 p.m. to 10 p.m. the opening day and from 8 a.m. to 10 p.m. the second day.

Committee on Arrangements.

The committee on arrangements is composed of J. B. Norton, chairman; W. F. Pierce, treasurer; C. F. Glass, vegetables; W. R. Ballard, Mrs. M. M. Clark and Mrs. C. R. Hutchinson, dahlias; Mr. and Mrs. H. E. Davis, other flowers; Mrs. A. Harrison, candy; M. M. Clark, designs and decorations with flowers; F. R. Heald, education and information; Mrs. C. F. Glass, canned products; Mrs. F. F. Pierce, baked products; and R. C. Eaton, publicity.

Falls Church Exhibit.

The annual flower show under the auspices of the Woman's Civic League of Falls Church, Va., is to be held at the congregational building October 5 and 7, afternoons and evenings.

Mrs. W. T. Wescott, chairman of the committee in charge, said last night she had every reason to believe the exhibits would be much more numerous and of greater merit than ever before. This year, for the first time, fruits and vegetables also are to be shown.

The league awards only ribbons to the successful exhibitors, but there are a large number of cups and other special prizes donated by merchants and seedsmen of Falls Church, Washington and elsewhere. There are to be special classes with ribbons and prizes for flowers, fruit and vegetables grown by children.

During the summer a lawn beautifying contest has been conducted under the auspices of the league, resulting in the making and care of a large number of flower beds and the planting of many ornamental plants and shrubbery.

MISSING COUPLE SOUGHT IN NEW HAMPSHIRE WOODS

Joseph A. Dennison and Wife Go on Stroll in Forest and Fail to Return.

DIXVILLE NOTCH, N. H., September 23.—Thorough search of the "big woods" near here is being made today for Joseph A. Dennison, former assistant district attorney of Boston, and his wife, who have been missing since Wednesday, when they started on a walk through the forest. So far, however, no trace of the couple has been found.

Mr. and Mrs. Dennison had been here ten days. They were apparently in the best of health when they started on their walk, but as the woods are deep and afford little or no aid to human subsistence, their continued absence has caused alarm for their safety. Daniel H. Coakley, of Boston, an attorney and brother of Mrs. Dennison, is expected here late today to participate in the search.

LIEUT. COMMANDER MORHART RETIRE FROM NAVAL BATTALION

Served for More Than Ten Years as Surgeon With Rank of Lieutenant.

Cared for Health of Militiamen During Cruises on Warships of the Atlantic Fleet.

LIEUT. COMMANDER F. H. MORHART.

After more than ten years of active service, during which he cruised on many of the battleships of the Atlantic fleet, looking after the health of local naval militia on their annual practice cruises, Lieut. Commander Frederick H. Morhart, surgeon of the Naval Battalion of the National Guard of the District of Columbia, has retired. For more than ten years he served as surgeon with the rank of lieutenant, and was retired with the advanced rank, by reason of the fact that he served for more than ten years in one grade. He received the advanced rank of lieutenant commander before he retired.

Dr. Morhart is a native of Ohio, where he was born at Middleport, February 3, 1875. He was educated in the public schools there, studied pharmacy, was graduated and became a registered pharmacist in that state. Later he came to Washington, and studied medicine at George Washington University, then at the University of Maryland, where he graduated in medicine and surgery in 1898, and in a competitive examination for appointment as resident physician of Emergency Hospital was the successful candidate. When his term of service there was nearly up, the Philippine Insurrection was at its height, and he went into the Medical Corps of the United States Army and was sent to the Philippines, where he remained for two years, participating in many of the engagements there.

Begins Private Practice.

Upon his return from the Philippines he left the army and began the private practice of medicine in this city, which he has continued ever since.

Having a liking for the military service, Dr. Morhart, February 24, 1900, accepted a commission in the District Naval Militia, and has served on the staff of four commanders of that organization, Commanders S. W. Stratton, F. S. Durston, Joseph A. Dempf and Randolph E. Brummett. When he retired Dr. Morhart was the oldest officer, in point of service, in that battalion.

During his service there he has examined several thousand of the young men of the city who applied for enlistment in the organization, and has attended to their ill on the annual cruises aboard Atlantic fleet battleships during that period. He is well known to the men and was very popular in the organization. He is a member of the Association of Military Surgeons of the United States and the Military Order of the Carabao.

Dr. Morhart applied for retirement from the local naval militia on account of failing health, which prevented him from keeping up his active duty at the militia armory and on cruises.

RULES FOR THE TRAINING OF NATIONAL GUARDSMEN

Gen. Scott Places Special Stress on Field Work, Discipline, Hygiene, Sanitation, Etc.

In general orders issued by Maj. Gen. Scott, chief of staff of the army, in reference to the instruction and training of the National Guard mustered into the service of the United States, special stress is laid on the necessity for thorough field training, discipline, physical training and instruction in the hygiene and sanitation. It is stated that practical work in the field should be varied with short talks by the company commander or other instructor, while the men are allowed to rest on the ground. The men must be made to understand the object and meaning of the exercise about to be practiced, and their individual intelligence and self-reliance fostered, so that in the absence of a leader, action will not be paralyzed. To lend reality to field training, each exercise should be based on a simple tactical idea, which should be thought out beforehand and explained to all taking part, before commencing the exercise.

It is stated that the meaning of discipline in its highest and most important sense should be explained and taught early in the soldier's career, as first impressions are generally lasting ones. That can best be done, it is explained, in the form of talks and lectures by the higher officers of the regiment, and especially by the colonel, who, in the eyes of the soldier, is the embodiment of military knowledge and virtue.

ARMY—NAVY.

Army Orders.

Maj. Fox Connor, field artillery, is detailed for service in the Inspector General's Department, and will report to the Inspector General for duty in his office.

Col. Charles W. Taylor, 8th Cavalry, will proceed to Fort Sam Houston, Tex., for examination.

Maj. Charles F. Morse, Medical Corps, will report at Columbus barracks for duty.

Chaplain John A. Randolph, 6th Infantry, is transferred to the Corps of Engineers, and assigned to the 2d Regiment.

Maj. Alfred T. Smith, infantry, is detailed as professor of military science and tactics at the Ohio State University, Columbus, Ohio.

First Serg. Paul Aust, Troop M, 5th Cavalry, and First Serg. Cornelius J. Leach, Troop H, 17th Cavalry, are placed upon the retired list.

President Poincaré of France has made a collection of photographs of English soldiers who have won the Victoria Cross.

Don't Use Dangerous Antiseptic Tablets

It is an unnecessary risk. Use the safe antiseptic and germicide, Absorbine, Jr.—it kills germs quickly and surely without any possibility of harmful results, made of pure herbs, non-poisonous, and there is no danger whatever if the children get hold of the bottle. It retains its germicidal power, even when diluted one part of Absorbine, Jr., to 100 parts of water—and its antiseptic powers one part Absorbine, Jr., to 200 parts water. The germicidal properties of Absorbine, Jr., have been tested and proven both in laboratory and actual practice. Detailed laboratory reports mailed upon request. Absorbine, Jr., \$1.00 and \$2.00 per bottle at druggists or postpaid. A liberal trial bottle postpaid for 10c in stamps. W. F. YOUNG, D. D. F., 276 Temple St., Springfield, Mass.

Reward of \$1,000 Offered.

BOSTON, September 23.—District Attorney Pelletier endeavored to stimulate the search at Dixville Notch, N. H., for Joseph A. Dennison and his wife, reported missing in the woods there, by asking the authorities at Colebrook, N. H., to render all possible assistance in the search. The scheme was approved by the committee on the \$1,000 reward for the discovery of the couple. Gov. McCall also wired to Gov. Spaulding of New Hampshire asking the assistance of the authorities of that state in the hunt. Orders were sent to the employees of the Connecticut Valley Lumber Company and the International Paper Company, near Dixville Notch, to abandon all work and join the search.

FOR SIGNALS AND WARNINGS.

Association of Railway Commissioners Wants Uniform System.

Plans for a uniform system of signals and warnings for the whole public highways across railroad right of ways may be adopted throughout the United States, if the National Association of Railway Commissioners succeeds in its efforts. A special committee on the prevention of accidents presented a uniform scheme to the organization at a recent meeting, and the body plans to have this scheme adopted throughout the entire country.

It is explained that in the past, because of the diversity of signals in various parts of the United States, warnings have been frequently misunderstood, with serious and even fatal results. Among the recommendations made by the committee are: That on the highway at least 300 feet from the railroad tracks should be a caution sign, in black and white; at the crossing itself the use of flags by watchmen be discontinued and the use of a uniform white metal disc with the word "STOP" in black be used, and that all crossing gates be painted in black and white stripes.

VISITORS TO SEE CENTRAL.

Inspection of High School to Be Delayed Until After Opening.

As soon as expedient after the opening of the new Central High School, arrangements are to be made whereby the public may go through the building and see its many attractions. Alumni of the school are to act as guides. Principal Emory Wilson is desirous that visitors do not come to the school for at least two weeks after the opening time, so that all interior work and arrangements may be completed without hindrance to the workers, and that as little confusion as possible will attend the work of "getting settled" in the new quarters by teachers and students. Announcement will be made when visitors can be cared for properly.

The date for the dedication of the new building has not yet been determined. It is probable that the entire task in which this date falls will be given over to a housewarming, in which the faculty, students, alumni and school officials will participate.

Sailors in the British navy now utilize their spare time in making munitions, for which they receive no remuneration.

Eyes Examined Free By Our Eye Specialist

25 per cent of headaches, nervousness, dizziness and eye strain are caused by imperfect vision. Let our SPECIALIST examine your eyes and prescribe for your individual need.
